- Creative and open mind to endless possibilities
- Fast Learner who is capable of following directions
- Enthusiastic team player who is fun to be around!
- Experience with linear and non-linear video shooting and editing

Interests

I enjoy playing many different sports, and there's a good chance you can find me on the nearest golf course during the months of May to September. I like spending time with my wife and planning for our first child due in July. Playing guitar is also a favorite pastime of mine, and anything to do with art and being creative is a huge passion as well!
